

ROMAN STRIKE IS ABOUT OVER

Troops Are Guarding All the Streets, and Merchants Are Opening Shops.

MANY ARRESTED

Over Four Hundred Are Taken Into Custody, and the Backbone Seems Broken.

(Special By Scripps-Mellae.) Rome, April 9.—The strike so far as being general in character is a failure. The militia seem to have the matters well in hand and all is quiet on the streets. Shopkeepers have again opened their shops.

Four Hundred Arrests

While all is quiet over four hundred arrests have been made as a result of yesterday's demonstrations and it is probable that the leaders will now remain quiet for some time to come, through fear of the soldiers.

Refuse to Join

Many of the shopkeepers who yesterday refused to join in the demonstration have again done so today and are opening their shops under protection of the soldiers who seem to have the matter in hand.

GOLF PLAYERS MAKING READY

Sinnissippi Golf Club Will Put in Two Tennis Courts This Season.

Although the season is not yet officially open, some of the more enthusiastic golfers are daily on the links, and during the past week have found the sport very exhilarating on several of the more balmy days. Preparations are going on constantly for the time when the weather can be relied upon and the whole membership of the club can throng to the links without fear of rain, snow, or hail.

Ready for Season

Such necessary repairs as are necessary to put the mower and apparatus in shape for the season's use are being made. Other changes are being made in a quiet way. The more vigorous campaign of renovation and repair will begin soon. Nothing has yet been done in the club house.

It is expected that the formal opening will occur in about three weeks, the elements being propitious. The usual elaborate function will occur at that time. Committees and other dignitaries to prepare for the event have yet to be appointed. The house and games committee for the coming year are also yet to be chosen.

To Play Tennis

Tennis is to have a fresh impetus at the hands of the Sinnissippi golf club this season. Two courts are to be built side by side in the depression between the club house and greens keeper's cottage, where the play will be within full view of the loungers on the club house veranda. It has not been decided whether to have clay or turf courts, but whatever the material they will be constructed so as to be serviceable for fast and hard play. New interest in the now almost neglected game is expected.

SCOTS OBJECT TO KING'S TITLE

They Want King Edward to Drop Title of "King of England."

(Special By Scripps-Mellae.) Edinburgh, Scotland, April 9.—At a meeting here today, called to make preparations for the visit of King Edward to Scotland, a curious incident occurred. Several of the local Scottish officials refused to have anything to do with the king until he dropped the title of King Edward VII. The objectors protested that the title was an insult to Scotland. They asked that, judging from the addresses he received at Lisbon, even the king himself seemed to realize that he was only the king of England. Considerable uproar prevailed but the meeting ultimately refused to listen any further to the malcontents.

Gibraltar, April 9.—King Edward arrived here today from Lisbon on board the royal yacht Victoria and Albert. The ships dressed, manned sides and saluted. The king was received by the governor and the naval and military staffs, while royal salutes were fired. A procession was formed and the king drove through the streets, which were lined with soldiers, to the neutral ground, and on returning went to the government house. King Edward attended a state banquet tonight given by Sir George Stuart White, the governor of Gibraltar. During the banquet the king announced that he had promoted Sir George to the rank of field marshal.

ORDERS CAPTURE OR WILL SINK IT

Forcible Detention of a Norwegian Boat by a Honduras Tug, Angers Coghlan.

(Special By Scripps-Mellae.) New Orleans, April 9.—Admiral Coghlan has ordered the capture or sinking of the Tatambula, formerly a tug, now a converted gunboat in the service of the government of Spanish Honduras, as the result of the forcible detention of the Norwegian steamer David, a merchantman in command of Captain Warnecke, which arrived here today from Celba, Honduras.

The David encountered the Tatambula, commanded by Colonel Villarde, off the north coast of Honduras, where she was boarded by government soldiers and threatened with bombardment of the Tatambula. If Villarde's orders for her to proceed to Utila were not obeyed. Arriving there the David lay at anchor one night, but was not again molested. Fearing the Honduras government meant to seize his vessel Captain Warnecke weighed anchor next day and reported the episode to Admiral Coghlan, who at once dispatched two vessels of his fleet to search for the Tatambula, with orders to capture or sink her.

He thought at first that it was a joke, played by some of his friends, but an examination of the neighborhood revealed the fact that no one had seen the missing animal and the next theory presented was that it was stolen.

Police Notified

Mr. Whaley at once notified the police and a careful search for the animal will be made. The wagon tracks plainly show where the wagon was driven out of the yard.

TALE OF A DUEL THAT HAPPENED

AN EVANSVILLE BOY'S EXPERIENCE IN FOREIGN LANDS.

THEY FOOLED THE AUSTRIANS

Dr. Wilder, a Rock County Boy, Had a Novel Adventure in Switzerland.

Dr. George W. Wilder of the state university is well known to Rock county people. He was brought up at Evansville and went from there to Madison in 1892 entering the university with the class of 1896. Dr. Wilder has made wonderful success of his work in physics and is today counted one of the rising young instructors in that science. His recent appointment to Armour institute, Chicago, as assistant professor of electrical engineering speaks well for his capabilities.

Studied in Europe
Dr. Wilder studied in Europe after his graduation and there received his Ph. D. degree. It was just about the time of the Spanish war and so much has been said and written about the opinion foreigners have of America's ability to lick Spain that Dr. Wilder's experience in Switzerland will be most interesting.

Called Them Pigs
Dr. Wilder and several other students were one afternoon holding a sort of love-feast in a Swiss cafe over Dewey's victory in Manila and their enthusiasm annoyed a party of swaggering Austrian officers who were sitting near them. Finally one of them rose with a yawn, announced in loud tones that "All Americans are pigs and cowards."

Row Starts
This was too much for the spirit of the Americans and one young enthusiast from St. Louis immediately sprang to his feet and hurled defiance at the heads of the Austrians. This was what they wanted and in a minute the Americans were showered with cards and formal announcements that they would be most pleased to meet them on the field of honor.

Duels Arranged
Some English officers present immediately offered their services as seconds and the duels were arranged to come off in a week's time. Now the Austrians were all excellent swordsmen and the Americans knew it. Of pistols they knew but little but even at that they were excellent marksmen compared to the American students who hardly knew one make of revolver from another.

Chose Pistols
Feeling that they must either fight or back down and show themselves cowards, the party decided to choose revolvers, hoping this would frighten the Austrians out, as the challenged parties they had the right to select the weapons and so their answer to the Austrians was made known.

Weapons Accepted
To the surprise and dismay of the Americans the Austrians were most eager to accept revolvers as the weapons. It was too late to back out then and so a committee on ways and means was formed and a shooting gallery just outside the city rented for a week that the boys might practice.

The Practice
With the exception of two of the party none of them were good shots and one day at the range, left the entire party more than discouraged. Talk of leaving town between midnight and morning was seriously discussed and many confessed that they were in a blue funk. Finally it was decided to use stringent methods to show the Austrians that if they ever dared to appear on the field of honor they would meet sure and certain death.

Targets Secured
Carefully prepared targets were arranged which had been previously been shot at at short distance showing bullet marks in the center and around the edges of the middle rings. Then certain Englishmen were asked to attend the afternoon practice, and see how well the students shot.

Much Interest Shown
By this time the entire foreign community had heard of the duel, and were watching with eagerness, the results. On the appointed afternoon the Englishmen were on hand and were shown to reserved seats in the rear of the shooters. Swiss shooting galleries are arranged like a baseball field and the spectators are all seated in raised seats at the rear with the targets so far to the front that the shot holes can not be seen.

Wonderful Shooting
One by one the Americans walked up to the chalk mark and fired shot after shot at the targets. They seemed to take no aim and when the targets were brought out for inspection of the visitors there were the centers perforated with holes and hardly a one on the outside. The Englishmen were astonished.

Their "Bah Joves"
"Such beastly good shooting I never saw" more than amused the students. They had never seen such an exhibition of shooting since Buffalo Bill and his rough riders had been in London and were at a loss to understand it.

Swear Secrecy
Of course the American secured the promise of their English opponents not to breathe a word of the skill as they wanted to kill all those Austrians and the promise was made and no sooner made than broken. What man could keep such a story a secret? Such shooting had only been read of and to have actually seen it was more than mortal man could keep to himself.

End of Affair
By nightfall everyone was talking of the result of the duel. Everyone agreed that the Austrians would be all killed and that the brave Americans would be the victors. This word of course reached the Austrians and almost before the evening meal was over notes came from each to his opponent offering a most abject apology for his words and speaking in highest praise of the American people.

can people and their fighting qualities.

The Funny Side
The funny side came afterwards, when the Swiss officers tried to make arrangements with the Americans for revolver lessons and even offered to pay for instructions. This complication was avoided by skillful arrangement of hours for work that it was too dark for practice and thus their reputations were saved.

REV. DENISON'S PLEASING LECTURE

Congregational Minister Gave a Most Interesting Illustrated Talk Last Evening.

Rev. R. C. Denison gave another of his interesting stereopticon lectures in the parlors of the Congregational church last evening.

The lecture was well attended, and consisted of a talk on the life of Jesus, previous to his crucifixion, the people with whom he associated and the manner in which He lived. Mr. Denison described in his usual interesting manner how Christ started out a common man, working in a carpenter's shop, carrying him along his life among the Jews, telling of his troubles, the scepticism and opposition to the people, the jealousy of his success by the high priests how they conspired with Julius to seize Him and throw Him into prison and on through His trial under Pilate to His death upon the cross.

Stereopticon Views
The scenes of the life of Christ were illustrated by stereopticon views, which were taken from the paintings of noted German artists, and these pictures added greatly to the interest of the lecture bringing clearly to the mind's eye the scenes through which Christ passed, the manner of the people who lived in those days, their dress and appearance. The pictures were all very good, showing every detail upon the canvass clearly and fully.

SNAPPY TALK ON STAGE NAMES

THE ADVANCE MANAGER OF THE MANXMAN VERY INTERESTING.

STRANGE POWER OF NAMES

Alliteration a Sure Sign of Success to Persons Who Are at All Superstitious.

H. Anton D'Arcy, one of the widest known of the advance agents who have represented Liebler and Co., the celebrated theatrical managers and proprietors, was in the city yesterday afternoon. While in the city he visited Manager Myers to make the usual business arrangements for the appearance of James O'Neill in the "Manxman" next Wednesday. He also called at the newspaper offices to tell of the magnificent production he is heralding.

While in the Gazette office the subject turned to the significance of words. D'Arcy has done more than a little writing at one time or another, especially on critical or gossip matters of interest to the theatrical public. On some topics he has thought and studied quite deeply. Consequently he was able to tackle the theme with rather more specialized knowledge of the theme than is usually encountered.

Shakespeare Misquoted
"Shakespeare never said that a rose by any other name would smell as sweet," declared D'Arcy. "He made Juliet say it—because she was lovesick. He never would have made so ridiculous a statement. By another name the rose would lose its distinctive charm."

"Everything depends on the name. Make a study of the subject and you will be amazed. I have been startled by some of the discoveries I have made."

"Alliteration is a lucky quality. From Colley Cibber to Williams and Walker, and a hundred other successful stage folk, success has depended in a larger measure than most people would believe upon that quality of alliteration. I am speaking from the dramatic and not from the literary or euphonic standpoint."

A Woman's Name
"Is it not a peculiar fact that Christ came from Cana and was crucified at Calvary?" D'Arcy here recited a list of fifteen or twenty similar coincidences which had come to his notice.

D'Arcy then took up the subject of the names of heroines. "Shakespeare," he said, "never used a woman's name of four letters ending with an a. In modern literature you will find the very opposite. And they are invariably applied to women of misfortune if not immorality. See the number of dramatists who have given their 'heavy' women names of four letters ending with a's."

"When I was in Kansas City a few weeks ago Mrs. Pat Campbell was playing a repertoire of three plays, all of them depicting women who I. not absolutely wicked were at least of a moral squint. The women she impersonated were Magda, the heroine of 'Magda'; Paula Tanqueray, in 'The Second Mrs. Tanqueray'; and Benta in the 'Joy of Living.' Each name has five letters and ends with an a. All of them are abbreviations of very beautiful names—Magdalene, Pauline and Beatrice."

Fast Chorus Girls
"The four letter names with a final a are more common—Nana, Cara, Zaza, and a hundred others. Notice the names of the Tenderloin district of New York where there are more on the sporty order than in the road companies: Lena, Lina, Anna, Cora, Ella, Edna, Myra, Nora, Rosa, Vida, and many others."

"You remember the girl in Omaha moved whose name was first Vera but was changed to Vera, and the suffering that befell her after the new name was given her. That is only the whim of a novelist, but it is surprising to see how often it works out in life."

"The most unnatural character in mythology was Lida. Take any class of literature that you like, and you will find that the dominating heavy woman of the class has a name of four letters ending with an a. "I was talking some months ago to Pinkerton in Philadelphia, and he said that the detectives found that the rule applied every day in the police courts. He told me of cases where women with such names had committed the most unnatural and horrifying crimes."

The list will be kept at the box office where all who wish can sign it and will be continued for one week. The sale of seats will begin on Monday, April 20th. ANOTHER SHOW WORTHY OF MENTION

"Through the Breakers" at the Myers Grand, Was Well Staged.

"Through the Breakers," with a lavish accompaniment of gory murder, hair raising escapes, and spectacular knife play was presented at the Myers Grand last evening by the Gaskell stock company. The applause following the curtains was electrifying. The actors won even a warmer place in the heart of the audience than their preceding bills had gained them.

Moving pictures and illustrated songs made up the greater part of the specialty program for the evening, and together with a number of selections by the orchestra, helped to fill the pauses in the performance. Tonight's announcement is "The City of New York."

Coming Attractions.

We are pleased to announce another Hall Caine drama and Lieber & Co., production at the Myers Grand next Wednesday night, April 15.

James O'Neill is going to play "Pete" Quilliam, in the "Manxman" and the reports from down the line indicate a fine performance.

Hall Caine was almost an unknown quantity in literature when "The Manxman" first came from the press. He had written two books that had marked him as a man of promise, but it needed the superb realism, and intense human interest of this novel to open the eyes of the readers of English books to his real standing in the world of fiction. It was really the corner stone of his fame. It ran from edition to edition, from

It will be a pleasure to see James O'Neill in his new departure. We have admired him as D'Artagnan, Edmund Dantes and other characters of the Chevalier type; we know of his ability and will welcome him in any line of work he offers, for if he accepts a role, it is doubtless worthy of him, in addition to the star, he brings a brilliant company. The leading lady is May Buckley, who ever since she appeared in "The First Born" has been talked about for her wonderful and versatile ability. Three well known leading men are also in the cast, Frank A. Connor, Joseph Milgour and Chas. Kent, also that popular character actress, Annie Wood. There are about twenty

EVA TANGUAY IN "THE CHAPERONS"

thousands to hundreds of thousands of copies, and it was not long before the name of the Manx author was known wherever the English language was spoken. In reality, the "Manxman" had more to do with the fame of Hall Caine than either of his two great later successes, "The Christian" and "The Eternal City" which have made fortunes for the author, publishers and theatrical managers.

Mr. O'Neill says he has never found a role more suited to his art, to the talents that have brought fame and fortune to him in many years of activity on the American stage—than that of "Pete" Quilliam, the hero of "The Manxman." This "Pete" is first discovered as a humble man at the "Manx Fairy" Inn, but his love drives him forth to seek

other players, mostly well known and a mob scene, something like the one in "The Christian" place about forty more on the stage, a live baby, cows, chickens, doves and pigeons, make up an ensemble of animation which should make some realistic tableaux. If "The Manxman" is half what we hear of it, Mr. O'Neill will be cordially greeted.

Chaperons
A bright and attractive musical entertainment will be the offering at the Myers Grand April 22. This will be the comic opera hit of last season, "The Chaperons," which is under the management of Frank L. Perley, formerly manager of "The Bostonians" and the Allee Nelson opera company. In "The Chaperons" Mr. Perley has supplied, as will be remembered by those who saw it here last season, an entertainment of a light musical order, built on the lines of modern farce. The story of the play is a whimsical one, dealing with a search for two seals, one of which has been lost from a will and the other from an aquarium. The scenes are laid in Paris, and Cairo, Egypt, and the characters range from that of a New York subway contractor, played by Walter Jones, to a female sleuth, impersonated by Eva Tanguay. The company from all accounts is as large as ever and contain in its membership practically all of the old favorites. "The Chaperons" has met with much success throughout the country, having presented during the last season and the present one, in every important city of the East and Midwest, and at the New York theatre last summer for a ten-weeks Broadway run.

Uncle Josh Sprucey
When a person or a number of persons who try to do right, let their manners be ever so ludicrous their dialect ever so uncouth—in the end they will impress the people of the community in which they live with the sincerity of their motives. In the end they will win out. Just the simple, plain and unvarnished story of the struggle for success of such people is often a pathetic as well as humorous recital.

The above is probably an honest criticism of "Uncle Josh Sprucey" for the reason that the drama is a true blending of the funny and the serious, just as represented by the lives of some persons. The story is dramatic for the reason that it is filled with stage surprises, at the same time it is only a simple story because it deals with only simple people. While not claiming to be a homespun story it is at the same time true to life.

For he that eateth and drinketh unworthily, eateth and drinketh damnation to himself, not discerning the Lord's body. For this cause many are weak and sickly among you and many sleep. For if we would judge ourselves, we should not be judged. But when we are judged we are chastened of the Lord, that we should not be condemned with the world. Wherefore, my brethren when ye come together to eat, tarry one for another. And if any man hunger, let him eat at home; that ye come not together unto condemnation. And the rest will I set in order when I come.

What Osteopathy Has Done.

Sciatica
Mr. E. F. S. twelve years standing came in right leg first, but for several years had been on the left side. Pain also noticed in calf of leg when standing with head thrown back. Had last acute attack about three months before he came to us for treatment, and came with the hope that treatment would ward off an attack this fall. Upon examination found contracted dorsal region and especial tenderness over the fifth lumbar; also found by making local examination that the sacral nerves anteriorly were very sensitive, and lower pelvic structures contracted. Patient began treatment July 2, 1901, and continued for one month.

Treatment was directed to the lumbar and sacral regions. Also gave a number of local treatments which were very important factors in curing this case. Before the internal treatments were given the results were not satisfactory. July 23, 1901, patient reported while at one of the summer resorts for a day and a half he went in bathing four times and had no bad effects. August 10th advised a rest of two weeks with instructions to report if he had any further trouble. September 23, patient reported he had had no return of the pain.

Sciatic Rheumatism
Case No. 4. Mr. C., aged 32, carpenter by trade, had suffered with sciatica six weeks, drugs being unable to cure him; could hardly walk when he came to me. First treatment relieved him greatly; at end of a week he resumed his work, and was entirely cured by a few more treatments.

Constipation
Case No. 5. Mrs. G., aged 30, had constipation for eighteen years some indigestion. Lesion, posterior condition of splanchnic area. Bowels moved regularly after second treatment; no more stomach trouble after fifth treatment; continued treatment for five weeks. Result, a complete cure.—Reported by Geo. H. Carpenter, D. O., Chicago, Ill.

PRESS COMMENTS
Hudson Star Times: The citizens of Janesville in convention assembled have resolved that the officials of that city should be governed by the municipal charter. They appear to be getting rather particular down there.

Racine Journal: There should be no objection to a state regulation of automobile. Owners of such with consideration for the public will make no trouble.

Madison Journal: Oscar Triggs is offered a job to travel ahead of a "Romeo and Juliet" company and give lectures to kindle interest. The company is a good one and the salary big; and the Chicago University man is thinking seriously of it. Ever since Triggs frowned on the good old song "O, Think of the Home Over There" we have had a prejudice against the fellow, that even his advocacy of slang does not ameliorate.

A Layman's Lenten Sermon.

Thursday Before Easter; Cor. XI, 17.—In this I declare unto you I praise you not, that ye come together not for the better, but for the worse. For, first of all, when ye come together in the church, I hear that there be divisions among you; and I partly believe it. For there must be also heresies among you, that they which are approved may be made manifest among you. When ye come together therefore into one place, this is not to eat the Lord's supper. For in eating everyone taketh before other his own supper; and one is hungry, and another is drunken. What? have ye not houses to eat and drink in? or despise ye the church of God, and shame them that have not? What shall I say unto you? shall I praise you in this? I praise you not. For I have received

of the Lord that which also I delivered unto you. That the Lord Jesus the same night in which he was betrayed took bread, and when he had given thanks, he brake it, and said, Take, eat, this is my body which is broken for you; this do in remembrance of me. After the same manner he also took the cup, when he had supped, saying, This cup is the new testament of my blood; this do ye, as oft as ye drink it, in remembrance of me. For as often as ye do eat this bread, and drink this cup, ye do show the Lord's death till he come. Wherefore who soever shall eat this bread, and drink this cup of the Lord unworthily, shall be guilty of the body and blood of the Lord. But let a man examine himself, and so let him eat of that bread and drink of that cup

WISCONSIN WEATHER FORECAST
Fair tonight; possibly showers Friday.

NOTICE TO ADVERTISERS.

On and after April first, 1933, no contract will be made for business local. The rate for this class of advertising will be ten cents per line for each and every issue of either Daily or Weekly. The Gazette adopts this policy for two reasons:

First, To improve the news columns of the paper. The first consideration of any newspaper, is the reader; and its value to the advertiser depends entirely upon its popularity with the reading public. Business local frequently flood the composing room the last hour before the paper goes to press, and news is sacrificed to meet the demands of this class of business.

Second, The Daily Gazette is rapidly extending its circulation throughout the county, giving the Janesville merchant an opportunity to talk to the farmer as well as the city customer, six days in the week. This means faster machinery, and increased expense in producing a paper as well as increased value for advertising purposes.

The Gazette has also adopted what is known as the space rate for display advertising, and prices have been placed within the reach of all advertisers.

The paper has long enjoyed a liberal patronage from home merchants, and it is in position today to furnish better service than at any time in its history.

GAZETTE PRINTING COMPANY

THE PEOPLE'S VICTORY

The campaign, which closed last Tuesday by electing the citizens' ticket contains some lessons that are worthy of note. It demonstrated first that the will of the people is supreme, and that when public sentiment is once aroused, no power can resist it.

The victory carries with it also an omen for good, by demonstrating that the better class of citizens are willing to sacrifice party prejudice for the cities welfare.

It teaches the opposition, by an object lesson so plain that the blind may read, that the people and not the would be politicians are in control, and that they propose to conduct their own business.

The Recorder, as the mouth-piece of this opposition, has been given to understand most emphatically, that the power of the press is powerless when arrayed against public sentiment.

The Municipal League is responsible for the good results accomplished and its promoters and supporters are entitled to much credit. The organization should not only be kept alive, but it should be encouraged by all good citizens. Every taxpayer should attach his name to the membership roll. When this is done the organization will possess numerical strength, and will be a controlling power in the city.

The Gazette will be pardoned for saying its columns have been thrown wide open in support of the League movement because the paper believed that the principles involved are vital to the welfare of the city.

In doing this the paper has sacrificed nothing in the way of its republicanism. It will be found in line with the republican party on all state and national issues, and all others where party principles are involved.

The paper has long contended that the city government should be free from politics, and it holds with much satisfaction the fact that the people have finally taken the matter in hand and decided to govern themselves. It means more for practical reform and future prosperity than anything that has happened since the city was chartered.

The Gazette is with the movement and will stay with it just as long as the people are willing to support it. There is no reason why the city of Janesville should not have an ideal government. It is an ideal city in many respects. Three fourths of the voters own their own homes and are in comfortable circumstances. These conditions do not prevail in any other city in the state. They give an air of stability to the city that is unique and most desirable.

The city of Beloit is frequently referred to and its rapidly developing industries are often envied. But Beloit is controlled largely by labor unions, as was demonstrated by the election last Tuesday. This means that the city government will be largely controlled by men who represent but little in the way of property. This does not necessarily mean poor government, but it does mean that the most important interests are not fairly represented.

While Janesville wants new industries, and is disposed to encourage them, the city will continue to be conservative. It is a goodly city for a home and very few people feel compelled to leave it to better their conditions.

The outlook for the city was never more encouraging. When good government is established it will be still more desirable.

Not a paper in Toledo mentioned the name of Golden Rule Jones during the campaign, but he was elected by a good majority. Such is the power of the press.

Public business is a sacred trust, will be the motto of the new administration.

GREATEST OF ALL BUYERS

For the first time in our history manufacturer's materials have in the month of February, 1933, constituted more than half of the total imports. Twenty-one years ago the proportion of manufacturers' material was 33.9 per cent. of the total of imports. In February the percentage had reached 51.3. In that month our manufacturers bought of foreigners \$42,000,000 worth of materials to be converted into finished products by American labor. The total of this class of importations for the fiscal year ending June 30, 1933, will be at least \$150,000,000, or \$35,000,000 more than in 1922. This does not indicate the need of any change in our tariff system looking toward increased purchases from the outside world. We are already the most liberal buyers of foreign commodities of any nation on earth. Lower tariff duties would result in our buying much more of finished products in which American labor would have no part, but they would undoubtedly diminish the quantity which we buy of material used in manufacture. Better leave the tariff as it is. —American Economist.

This is sound advice, and is in accord with the administration. The nation prospers in proportion to the amount of profitable employment furnished to the laboring classes. The raw material of the old world represents but a fragment of labor, when compared with the finished product.

The nation is importing this raw material in liberal quantity and every American laborer is kept busy in working it up. Under free trade rule, only six short years ago, we were importing the finished product and an army of American workmen were idle as the result. The protective tariff is responsible for changed conditions and the man who would wantonly destroy it has no right to a home on American soil. America for Americans is a safe motto to adopt and observe.

Free trade is a theory and a fallacy. If England wants it, let her have it. The people of this country are not serfs and they have no disposition to enter the realm of serfdom. The home market is the best market in the world. It consumes 90 per cent of our manufactured products when times are good. It is a good time to let well enough alone.

THE SUGAR QUESTION

Secretary Wilson says this country last year paid \$122,000,000 for imported sugar. In his opinion that vast sum ought to be expended at home to support the growing industry, and he is confident that we will at no distant day produce our own sugar and have a surplus for exportation.—Huntington (Ind.) "Farmers Guide."

If it requires 27 factories to supply the state of Michigan there should be no question about the beet sugar industry so far as the American market is concerned. The time will come when this country will take care of itself on sugar.

VERY LITTLE DIFFERENCE

We would like to have some good and kind Polk county politician point out wherein the speech recently delivered by Mr. Cummins differs from the speech delivered at about the same time by Edward Shepherd, the head of Tammany hall, as far as the tariff is concerned.—Cedar Rapids "Republican."

One was a republican speech and the other democratic. That is the main difference.—Des Moines "Register and Leader."

HOW TO KILL TRUSTS

The tariff is the mother of trusts. —St. Paul "Globe."

Yes, on the same principles that woman is the mother of measles. A woman has children and children have measles.

The tariff is the mother of certain industries, and they, under the management of commercial genius, are the mothers of certain trusts. Kill the industries and you will kill the trusts, sure. All this can be found in all editions of that famous work, the American Business Primer, first page.—New York "Sun."

DONT ALWAYS DENOUNCE THEM

Some republicans are denouncing the manufacturers of America, something they did not do in 1896, when they were accepting contributions to assist in electing William McKinley and the establishment of American Protection.—Des Moines "Capital."

ALL WOULD SUFFER

Mr. Cleveland still believes that the tariff is the root of all evils; and if there were some way by which he could make his party and not the whole country suffer for his hallucination he might be forgiven partly.—Brooklyn "Standard Union."

The Recorder says that organized democracy stands for the same principles of the league. Better "Jingo" and get in out of the cold.

Ambition is commendable when wisely directed, but it frequently gets the best of a man in politics.

The new second ward alderman will not be very much comfort to "progressive democracy."

There will be no political boss in the council this year the people have taken control.

Public business is a sacred trust, will be the motto of the new administration.

Mayor Harrison is still popular in Chicago. The city is not ready for reform.

A member of the Janesville Democracy says that the party looks like seventeen cents.

The peoples business will hereafter be transacted at the city hall.

The president is still talking sense and making friends.

Crushed stone will command the market price in future.

There's many a slip twixt the cup and the office.

If you can't be good, be as good as you can.

The "bloody fifth" has been purified.

"Progressive Democracy" also ran.

Talk is cheap, but votes count.

It pays to be honest.

FARM WORK IS NOW UNDER WAY

MANY ROCK COUNTY AGRICULTURALISTS PLAN CROPS.

PULVERIZING THE OAT FIELDS

Great Scarcity of Help is Now Experienced in All Parts of the Country.

Once more the Rock county farmer has begun active operations in the field. In fact some of the more energetic and bustling agriculturalists had the plow, the pulverizer and the drag going the latter part of March. A great deal of sod has been turned under this spring and this will make, perhaps, a slightly increased acreage of corn. But at this time indications point to a general average, balancing of the crops, with about the usual acreage of each.

Pulverizing in place or plowing for oats seems to have been the general rule this spring. This method of putting in the oat crop is growing in favor, at least in certain sections, as it is a great saving of labor and time, and as the results obtained are very generally satisfactory, it will commend itself to the farming fraternity and will undoubtedly come more and more into general practice.

To Simplify Work
In these days anything that will simplify and expedite the work on the farm will be eagerly sought for and gratefully accepted by the anxious tiller of the soil, for it is known that farm help is exceedingly scarce and hard to get. The drift is certainly cityward, for the average boy is sure that his fortune can be easily made if he only leaves the humdrum life on the farm for the gayer, happier city existence, and hence our farmers complain of scarcity of help. Farm life, however, is becoming more endurable here in old Rock county and it would not be at all surprising to see in a few short years an exodus countryward from our cities. Rock county is making rapid strides in rural improvements.

Interurbans
The Interurban railway is already here, telephone lines now connect the farm home with the centers of commercial activity, and the rural mail delivery will soon reach every corner of the country. With all these advantages, country life, with its pure air, pure food, and pure water will appeal more strongly to those who have set their faces cityward, and Rock county will maintain her place as one of the most progressive and prosperous agricultural counties in the state.

Cold Spring
It has been a cold spring thus far. The weather man has failed to connect with the balmy air department and the ground remains cold and in some sections has been so wet and heavy that farm work is only fairly begun. Some rugged veterans affirm that it will take a good snowstorm to dispel the prevailing chilliness in the atmosphere, and give us real spring.

Rye Acreage
There is a good acreage of rye throughout the country this year and the crop apparently wintered well. Every acre put into rye in the fall will help the farmers out nicely with his work in the spring and as the crop brings good money it has come into favor in spite of the fact that it is hard on the land. The crop looks good now, there having been enough moisture this spring to give it a nice start. Taken in all, the work year starts quite auspiciously for the man who tills the ground and all will unite in wishing him a successful and prosperous season.

WILL NOT CHANGE ITS LINE OF TRACKS AT ALL

Interurban Management Repudiates Report It Will Decrease Its Service at All.

To the citizens of Janesville: The story has been industriously circulated that the Beloit, Delavan Lake and Janesville Railway company intends taking up its track on those parts of Franklin, West Bluff, High and Wall streets, known as "the loop." This story has no foundation in fact, and the purpose of its circulation must be obvious. The company, instead of discontinuing its service on those streets, will extend it, if possible, so as to run closer to the railway stations, thus giving its patrons better accommodations. Permit me to say in addition that, instead of discontinuing any part of its line in the city of Janesville, the company I represent is anxious, as well as pleased to extend its railway on other streets whenever the conditions will permit. April 8, 1933. Respectfully, H. H. CLOUGH, General Manager.

Ladies' Society: The Ladies' society of the Presbyterian church will meet Friday afternoon at two o'clock in the church parlors.

Woman's Mission: The Woman's Foreign Missionary Society of the First M. E. church will meet Friday, April 10, at three o'clock in the church parlors. The subject for the afternoon study: The touch of love; From the three crosses of St. Thomas' Mount 635 A. D. to the landing of Carey in Calcutta, 1793. You are cordially invited to spend the afternoon with this society.

MILTON JUNCTION HAS SENSATION

METHODIST PREACHERS MAY BE MADE POLICEMEN.

THEY ARE PETITIONED TO ACT

Is the Result of Their Fierce Pro-Election Campaign Against License.

As an aftermath of the crusade against license the two Methodist ministers of the town of Milton have been called upon to serve as marshals. A petition signed by nearly fifty voters was filed with the town clerk Wednesday asking the board of supervisors to appoint the Revs. C. M. Starkweather and Thomas W. Norton as police officers for the villages of Milton and Milton Junction. Both were prominent in the license fight which was so overwhelmingly won by the no-license forces. The largest vote ever cast at a town meeting was cast Tuesday, and the majority of 103 against license was totally unexpected. Both sides made desperate efforts to get out every vote, and until the votes were counted the license workers were more sanguine than the temperance workers.

During the campaign each of the ministers made several addresses against license and Mr. North wrote an open letter to the voters. This was printed in a local paper and then issued in tract form. These tracts were distributed from house to house by Mr. North in person.

Scores Inactivity
At the town meeting Tuesday Mr. Starkweather presented a resolution instructing the board of supervisors to appoint a marshal. The resolution was amended so as to ask for two marshals and then adopted. In speaking to the resolution Mr. Starkweather used some very plain words in regard to the inaction of the town board during the past year. At the town meeting last year a resolution was passed requesting the board to do something in regard to the illegal sale of liquor. But with \$322 in the law and order fund not a thing was done. And though urged to make a move in the matter by the minister they had excuses always for inaction.

The petition presented contains the names of many of the leading business men of Milton Junction, including both druggists, and also the names of several who are generally reported to be either the patrons or proprietors of the Junction's biggest blind pig and its gambling resort. There are also signed to it the names of some of the leading prohibitionists and temperance advocates.

Their Side

When seen in regard to the matter the two ministers most interested made the following statements:

The Rev. T. W. North: "The matter comes as a complete surprise to me. If appointed I shall qualify and serve to the best of my ability."

The Rev. C. M. Starkweather: "I suppose this is one of the compensations that comes to a minister who tries to do his duty. I regard the petition more as a joke and as such it has amused me very much. I do not expect to be appointed. The board of supervisors are conservative men and will probably think that a competent marshal can be provided without calling on the ministers. I shall not refuse to do my duty. I am sure that if Brother North becomes marshal evil-doers will need to walk very straight or run very fast."

Ask for Information:

City Clerk Badger received a communication from Rogers and Rogers of Fort Atkinson a few days ago inquiring after the action taken by the city on the claim for damages filed by August W. Mailwitz of Milton, whose attorneys they are. Mailwitz is the man whose leg was broken last winter while drawing wood down East Wisconsin Milwaukee street. He claimed that the front stakes of his wagon would not have been broken, throwing him down from the wagon, if the road had been in proper condition. The claim is in the hands of the judiciary committee and will probably remain there.

BOATS COLLIDE DURING FOG

PLACE WOMEN IN THE BOATS

All Hands Are Taken Aboard a Tug and Landed in New York—Both Vessels Are Badly Damaged, but No Lives Are Lost.

New York, April 9.—The Atlas liner Allegheny, from Port Limon, Costa Rica, was badly damaged in the harbor of New York as the result of a collision with the British steamer Joseph Merryweather, bound out for Baltimore and Cork, Ireland.

The passengers, many of them being women, were panic stricken, and a number of them attempted to jump overboard. The tug Coastwise, which was passing, responded to the signals of distress. Meanwhile the steamer's officers had lowered two boats into which the women were placed.

is Partly Submerged.
All the passengers were taken on board the tug and brought to the city. The Allegheny had been struck on the starboard side, and a huge hole was torn in the plates. The bow settled rapidly to the bottom, but, owing to the watertight bulkheads, the stern remained afloat, and here the crew gathered, preferring to remain by the ship.

The Merryweather stood by until the passengers had been rescued. Its stern was stove in, and it anchored off the statue of Liberty until the extent of the injuries could be ascertained. The Allegheny was finally towed to Brooklyn.

Occurs During Fog.
The Allegheny left quarantine early in the day, but had anchored in the bay below Robbins' reef because of the fog. It was here the collision took place.

The Allegheny sailed from Port Limon March 30 with thirty-four passengers on board. It was built at Glasgow, in 1894. It was 310 feet long, 38.2 feet beam, and 23 feet deep, and registered 1,606 tons net.

The passengers on the Allegheny brought tidings of an eruption of the old Coliceno Del Tierra Firme in Colombia, near Galera Zambale, on March 22. The village of Tiojo was destroyed, and from sixty to 100 persons were killed and wounded. During the night of March 24 flames from the volcano were seen by passing vessels at a distance of sixty miles.

Springfield, Ill., April 9.—President Lange of the Springfield Business Men's association has received a letter from President A. W. The mills will give employment to about 800 men.

Sale of Rare Books.

New York, April 9.—At the concluding sale of the library of the late Peter Marie books and manuscripts were disposed of, bringing \$22,817. The final total for the two days' sale—964 lots—was \$34,828. A Napoleon album brought \$1,775, the highest price of the day. It contained an "Ode to Napoleon," 1809.

Place for Col. Churchill.

Muscookee, I. T., April 9.—It is reported here that Col. F. Churchill of Connecticut will succeed J. George Wright as Inspector of Indian Territory. This is the largest office in the Indian Bureau. The incumbent is really the personal representative of the secretary of the interior and his acts are regarded as the direct acts of the secretary himself.

Submarine Boat Test.

San Francisco, Cal., April 9.—The Holland submarine torpedo boat Grampus has demonstrated her efficiency as a vessel of war by discharging a torpedo at a range of 350 yards and striking a stationary target squarely in the center. The board of naval officers was highly pleased with the result.

Error Causes Special Session.

Trenton, N. J., April 9.—The state of New Jersey must undergo the expense of a special session of the legislature because a clerk carelessly dropped a slip of paper. The paper bore an amendment to the Passaic sewer bill. The amendment will be offered and voted upon again.

Ex-Lieutenant Governor Dies.

Covington, Ky., April 9.—J. W. Bryan, former lieutenant-governor of Kentucky, died at his home here. He was for years a leading attorney, as well as prominent in politics.

King's Birthday.

Copenhagen, April 9.—King Christian yesterday celebrated his 35th birthday. He was in the best of health and was the recipient of many congratulations and gifts.

LATE LAWFACTS FOR THE LAYMAN

Recent Decisions That Will Interest Many to Understand Recent Cases.

Murder—Confession—Evidence
One's confession to having committed a murder, being voluntary and not being induced by threats or promise of advantage, may be used against him when he is placed on trial. A person who hears the confession made may testify, though he cannot give the exact language, but only the substance thereof. 54 Atlantic Rep. (Maryland, Judge Jones) 104.

Parent and Child—Legitimacy
Where a child, born twenty days after the mother was divorced from her first husband, whose whereabouts at the time were not shown, and fifteen days after her marriage to another man, was recognized and treated by the latter as his daughter until his death, when she was over nine years of age, such child should be presumed to be the legitimate child of such second husband, and entitled to inherit his estate. 66 Northeastern rep. (Illinois, Judge Boggs) 256.

Street Railroads—Assault by Motor-man
A boy fourteen years old, riding on the front platform of an electric car, was thrown or kicked from the car by the motorman. He walked a short distance somewhat lamely, and while in the act of crossing the further track was struck by a car and died from the injuries received. There was no evidence that he looked or listened or that he was so injured as to be unable to use his powers of sight and hearing. Held, that the railroad company was not liable for his death. 66 Northeastern Rep. (N. Y., Judge Gray) 405.

Street Railroads—Standing on Platform
Plaintiff boarded the front platform of a crowded car, on which six or seven other passengers were standing, and was injured by being thrown from the platform by a sharp jerk of the car as it rounded a curve. There was a sign on the car, of which the plaintiff was aware, that "Passengers riding on the front platform go so at their own risk." Held, that such rule was reasonable, and precluded a recovery for plaintiff's injuries. It was not negligent for the street car company to take plaintiff on as a passenger, because the car was crowded. 66 Northeastern Rep. (Mass., Judge Morton) 418.

Foreign Courts—Contracts—Recognition

A stipulation in a contract entered into between Italian citizens, partly to be performed in Italy and partly in the United States, that the Italian courts should have exclusive jurisdiction of actions thereon, is not so objectionable on grounds of public policy that the Massachusetts courts will refuse to give it the validity which it has under the Italian law, under the treaty with Italy, which gives citizens of each country full rights in the courts of the other. 66 Northeastern Rep. (Mass., Judge Knowlton) 425.

Boundaries—Fixed by Agreement

Where the true boundary line between adjoining owners is uncertain and unknown to them, and may be ascertained only at more or less trouble and expense, an executed agreement to accept and abide by a certain line as such boundary is binding upon the parties; and subsequent purchasers having notice thereof, although the boundary agreed upon may not be the true line. 92 Northwestern Rep. (Nebraska, Judge Albert) 859.

Baden-Powell Promoted.

Major-General Baden-Powell, who made the famous defense of Mafeking during the Boer war, has been appointed inspector-general of cavalry of the British army.

Janesville Citizens Gladly Testify.

It is testimony like the following that has placed "the old Quaker remedy," so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Janesville citizen:
Mr. L. Lawrence of 408 S. Franklin St. engineer at the Janesville Electric Co., says: "Seven years ago I injured my back by falling through a bridge near Afton into the Rock River I was on a traction engine, its weight broke through and the whole thing went into the stream. Since that time my back has ached by spells sometimes very severely. If I caught cold it settled in my kidneys and if I brought a strain on my back lifting the result was a bad back ache and sharp twinges of pain in my loins. I procured Doan's Kidney pills at the People's Drug store and after I used them I was free from backache. I am in better health than at any time since falling through the bridge."
Sold for 50 cents per box, by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
